

GAREX

The professionals who have your
satisfaction at heart.

The quality has a brand name

A leader in the design and manufacturing of steel and aluminium garage doors, Garex offers you a variety of styles that operate efficiently and silently. All of our doors are the outcome of our know-how that made of Garex a recognized manufacturer in terms of product quality and durability for more than 25 years.

Garex lets you enjoy peace of mind years to come.

WARRANTY **25**
years

▪ R-16 INSULATION WITHOUT CFC ▪

We have **your satisfaction at heart.**

The Garex doors integrate exceptionally with the architectural style of your home and present an incomparable finished quality.

Our garage doors are entirely defined for your intended use. Their quality of manufacturing is our pride and exceed the highest standards of the industry.

Peace of mind

Garex products give you the level of confidence you need for your peace of mind. Of heavy-duty construction, our panel and component combined to the work of a professional installer will ensure an exceptional durability and a minimum of maintenance. Our products are covered by a **limited WARRANTY 25 years** in order to make sure of your total satisfaction.

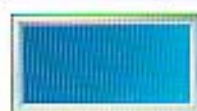

The steel or aluminium lining is protected by polyester-based baked paint. As regards steel products, a coat of zinc is applied under the enamel to guarantee maximum protection against corrosion.

A door that matches the style of your home

In steel or aluminium, they are available in a variety of colors and with several designs of thermos window offered as optional. Moreover, the white color of your doors matches perfectly the white color of your PVC windows.
